Experience

Le Wagon

Lead Instructor
2020–Current

- Creating a curriculum that is up to date with the tech industry that is consumable by beginner coders
- Delivering precise and interactive lectures on Ruby, Rails, HTML, CSS, JS, Heroku deployment and other topics including background jobs, search, web-sockets, testing and hotwire.js features
- Leading project deliveries for students and acting as a source of support for any development, deployment, hosting challenges that rise

The Farm Folk

Co-founder and CTO
2019–2020

- Oversaw all technicality of The Farm Folk from development to deployment
- Reconstructed the JS components to fit the necessities of the product design and customer needs
- Performed all project management and development initiatives
- Tested and debugged any issues that arose
- Ensured timely delivery dates on the product to meet the market needs

Align Body

Co-founder and CTO
2021

- Developed IOS/Android compatible pilates app in partnership with professional instructor
- Managed end-to-end development/deployment process
- Used react native app to host a rails web app through a native WebView component
- Maintained design consistency through JS communication between the two
- Deployed native app using Expo EAS services, web app on Heroku
- Utilised Vimeo private video hosting and Stripe for subscriptions
- Styled with Tailwindcss
- Authored app fixes and enhancements to meet market/content creator needs

Hubbbi

Co-founder and CTO
2021

- Created online course building app with pilot group to guide development
- Hubbbi designed to help teachers & leaders publish course content and build community
- Built in Rails with Postgresql db, hosted on Heroku
- Styled with Tailwindcss and heavily implemented JS functionalities
- Drag and drop page editor with rich text, image uploads and nested page design using recursive SQL queries.

Education

Le Wagon

Fullstack Coding Academy
2018

Shillington College

Graphic Design
Certification
2016

University

UNSW Medicine – 6 months
QUT Business/Finance – 6 months
2014/2017

Technical skills

Ruby

Ruby on Rails

Figma

CSS

JS

HTML

React.js

React Native

Tailwindcss

Ruby docs

ruby-docs.org

- Scraped information and redesigned it with an enhanced UI/UX to enable a beginner friendly environment for standartised documentation.
- I continue to personally sponsor & contribute to this project.
